Peaches have made their appeagance in the market, but they are small

badty flavored, and held at high rates. Whether M. Dulany Ball be "migratory" or not in his habits, is still a mooted question with some, but that he certainly possesses in an eminent degree one of the peculiar characteristics of the migratory birds is a point about which there can be no dispute; and that distinguish ing trait is the inordinate desire for noise and notoriety that continually gets the better of him, and by which, invariably, his weak points are discovered as easily as the arrival of the sora from the North is in the fall made known to the spertsman by the incessant chirping of that wanderer, in the marshes. Some men, usually however, much younger than M. Dulany Ball. have the caccethes scribendi, others the caccethes loquendi, but rarely is it that both diseases that gentleman. Since last winter no Corn Exmade a speech; meetings of the Friendship Fire company, for a time, gave him opportunities to be heard; then he transferred the scene from which his scintillations were emitted to the meetings of the Columbia Fire company. No political mass meetings were held but he and though he "washed his hands" of them Ward meetings. Meetings to organize Building Associations and Insurance companies afforded him facilities for speaking which were not disregarded. As to military companies and firemen's processions, who could be orderly setgeant or chief marshal but M. Dulany Ball; and then oh! tide in the affairs of men taken at the flood by M. Dulany Ball, was the burning of the Market House and the public meeting of the Market House and the public meeting of the Market House and the public meeting of check.

But M. Dulany Ball must not only talk, no he must write, and for a time the editorial columns of a paper were at his command in which to disseminate his thoughts; but he soon found, and so expressed himself, that his talents did not lie in that direction—a "logical deduction" to which bribery. many of his friends agreed. But visions of editorial distinction having vanished, the charter having been adopted, the fire companies organized, elections over, building associations and fire insurance companies in full operation, military companies, drilling, and the building of the Market House in the hands of an efficient committee, what could M. Dulany Ball do to be heard? Some old people say it is better to be born lucky than rich, and if so, M. Dulany Ball ought to be a happy man, for just at this point, when the public were to be deprived for a time at least of the sound of his voice or the here charged with bigamy, and that a reporter | nominally lower. Dulany Ball seized upon this fortunate incident in his life's career, and hurried into print. The Road has a Government Land Grant of 1,000,000 acres. Whole Mortgage on Road, Equipment and Land, \$4,000,000. These Bonds are a first mortgage upon the Road, equipment and the land, and are convert-

ible into stock at the option of the holder. This convertible clause we consider of decided importance, as it is estimated the land will sell for enough to pay the mortgage, and if so, the entire nett earnings will be applied to dividends upon the stock. For further information apply to
